

What's Happening II

Well, the Calendaring Planning Meeting on February 21, 2009 was the next step in moving towards a merger with Sunrise River. The meeting was very successful as our two committees came together to plan the 2010 calendar and affirm the events that we both had planned for fall of 2009. Coming together is a transition and the calendar will show that. I must say that the Commissioner, Activities, Training, Communication, and Advancement teams worked well together and were able to come to agreement on the calendar. But we still have work to do. Sub-committees were formed to determine the location of Roundtable and other District Meetings. We will hear back after their work is done. The OA, which is boy run, will meet and discuss their calendar and timing as we take another step forward.

The Committees also discussed the naming process that would involve the Packs, Troops and Venture crews. As more work gets finished, we will get you updates on the "What's Happening" page as well as at Roundtables. We still have more work to do and need your involvement.

David J. Murphy
District Chair
